Population Specific Information

106 Single Adults

11 Youth (16-24)

21 Families

122 Chronic

30 Unsheltered

22 Identify as Indigenous

Information Bulletin

A critical shortage of housing that is affordable, safe and stable directly contributes to homelessness. The millions of Canadian families and individuals living in "core need" (spending more than 50% of their income on housing) are at serious risk of homelessness, as are families and individuals spending more than 30% of their income on housing. Arguably, the most impactful factor is the lack of affordable housing nationwide.
